

The medical experts told the unsuspecting masses the vaccines against covid-19 were safe and highly effective! The strong argument behind the Evangelical Vaccine Campaign to persuade unwilling Protestant Christians to take the jab was that this is what Jesus would do!

It appeared for a short time that everything surrounding this nightmare was a thing of the past and that life had returned to normal. Apparently, we were very wrong!

The lies told by doctors, scientists, politicians, and religious leaders are being brought to the surface again! This is due mainly to the serious physical and mental health problems that thousands upon thousands of people worldwide continue to be faced with, not to mention the untold numbers who died, either shortly after being vaccinated, or some months later!

Experts have also recently declared that the vaccines for covid-19 have greatly contributed to the strange and violent behaviours we are witnessing in a lot of people today!!
