

Whether Christians should continue to offer full support to Israel has become one of the most important questions in many Evangelical circles. How anyone who calls himself a Christian would even have to ask such a question is the question posed by many in the outside world!

The truth of the matter is clear and simple and the same for enquirers in both groups. High-ranking Mason and New Age leader Alice Bailey declared in her book, *Externalisation of the Hierarchy*, that, “the three main channels through which the preparation for the new age is going on might be regarded as the Church, the Masonic Fraternity and the educational field.”

As we have been continually warned by highly-reputed Christian and secular scholars, their method to accomplish this has always been to infiltrate organizations and place their men and women in leadership positions.

Obviously, in order to deceive where they infiltrate, these satanic Illuminati members must have a *cover identity*, preferably one that is very respected. This is why many of them are known to be the world’s greatest missionaries, or philanthropists, or evangelists, and so forth!

Therefore, dear reader, you need no longer be perplexed at such contradictory behaviour from professing Christians, or confused about where your loyalty lies!!
