

Far from the Old Testament being an unreliable historical record and full of myths, many of the most famous historians demonstrated how it provides some of the most incredible battle strategies that also appear throughout history!

But besides these exceptional military tactics, the Lord also has some incredible war weapons that He has not stopped using over the course of time!

The first is causing massive earth shakes. We see one example of Him using this weapon of war in the Book of Numbers, where Moses' leadership was being contested by the rebels, Korah, Dathan and Abiram!

This weapon is accompanied by something similar in God's arms depot – great hailstones, fire and brimstone. We find the clearest example of this in His judgement upon Sodom and Gomorrah. It is reported there are up to 600 active volcanoes in the world today and we have witnesses many of them erupt!

Another of God's war weapons is the outbreak of disease, that often hindered the enemy from carrying out an effective attack. There are numerous cases of this too in Scripture.

The last of the Lord's war weapons frequently used in the Bible is to create confusion in the enemy's camp, so that they will panic and begin fighting each other! We see a perfect picture of this with the story of Gideon and his small army in the Book of Judges.
